

R&D CENTRE

Your Research Partner in world of Food, Agro & Oil Industry

- To Design, Develop and Validate new products with latest technology and application suitable for Food and Agro Industry and improving processes for existing engineering products with value additions.
- To achieve global expertise in areas of Research and Innovation.

PROTO-VALIDATION

Pilot Plant

Chilling Plant

Boiler

Instrument Testing Skid

Cooling Tower

MUEZ-HEST ANALYTICAL LABORATORY

Muez-Hest Analytical Laboratory provides the testing facility for variable parameters for analytical testing & instrumental testing for oils, fats & foods.

Lovibond Tintometer

HPLC

UV-VIS Spectrophotometer

Karl Fisher Autotitrator

Viscometer

GC (Gas Chromatography)

FILTRATION

SEPARATION

PURIFICATION

SOLUTION

Muez-Hest provides products and solution that meet stringent application requirements in a variety of industries, including Food & Beverage, Process Water, Effluent and Environment, Pharmaceutical, Organic and Chemicals backed by Research & Innovation.

PRODUCTS

Candle Filter

Polish Filters

Cartridge Filter

Bag Filter

Pressure Leaf Filter

Scraping Self-Cleaning Filter

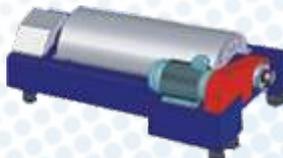

Automatic Back-Flushing Filter

SEPARATORS

Decanter

Screen Decanter Centrifuge

Automatic Vertical Bottom Discharge Scraper Centrifuges

MIXING TECHNOLOGY

Muez-Hest provides ideal models of the high & medium range impellers to suit on site requirements of variable field of material with higher efficiency.

APPLICATIONS

- Mixing
- Blending
- Dissolution
- Dispersion
- Emulsification
- Homogenization
- Reaction
- Fermentation
- Oxidation
- Digestion

Fixed Pitch Propeller

Cup-Mixer

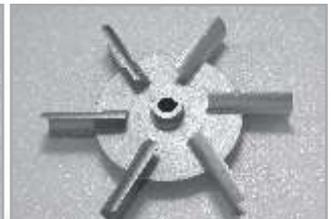

Skid Mounted
Mixing Equipment

DS Impeller With Inner Blade

Multi Flux Turbine Blade

Disk Blade Turbine

MUEZ HEST
Concept to Performance

MUEZ-HEST India Pvt. Ltd.

230 & 231, Blue Rose Industrial Estate, W. E. Highway,
Borivali (East), Mumbai - 400 066, INDIA.
